

Wisconsin Department of Veterans Affairs

Tony Evers, Governor | Mary M. Kolar, Secretary

August 7, 2020

Dear King Community:

As you are aware, COVID-19 continues to spread in our communities, and we have had some staff who have had the coronavirus. We remain vigilant and are holding steadfast to the practices and protocols that have helped keep all our Members free of coronavirus for the past five months.

Today, I am notifying you that we currently have four Members in the COVID-19 quarantine area. They are exhibiting respiratory illness symptoms and we have moved them there out of an abundance of caution as we await their COVID-19 test results. These members will receive care from a limited number of staff who have been trained in infectious disease control and will be wearing the appropriate personal protective equipment.

The WDVA's goal is to be as transparent as possible. We always call a Member's primary contact when we need to provide time sensitive information or consult regarding COVID-19 pertaining to that Member. We post all updates/notifications such as these on our website – www.WisVetsHomesCOVID.com. If you'd like to share these notifications with family members or look back on a previous update, they are all there.

Finally, as always and perhaps more important than ever, for those who have served our country and those who support them, stay home whenever you can, wear a mask when you are out, stay at least six feet away from other people, and wash your hands regularly.

Stay safe and healthy.

If you have any questions, I am happy to address them.

Sincerely,

Tammy Servatius
